Access Gates & Security – School Holidays

Please be reminded that we are shortly going to be approaching the school holidays. We need to ensure that all sites are kept secure and access gates are locked after use.

Should any access gates be required to be left open for any duration then it is essential that they are manned and then locked afterwards.

School holidays present an escalated risk of children attempting to trespass on the railway infrastructure.

DO NOT LEAVE GATES OPEN FOR A CHLD TO WANDER THROUGH!
